

North Carolina State University - ClassEval Report

Emplid: 000519161	Name: Bradley Johnson -- Course: American Politics &
Term: 2019 Fall	PS 201 203 Courses surveyed - PS 201 203
Question	Response
Comment on strengths and weaknesses of the instructor	I enjoyed the discussion group and how it was taught. It helped me better understand some current events in the world and concepts in class. The instructor was always enthusiastic about teaching the course and it really helped me feel like I wanted to participate. Everyone was treated with respect and they never got talked over in class when they wanted to say something.
Comment on strengths and weaknesses of the course	The readings weren't discussed as much as I wish they were in class since it aligned with the course information in class. I do think I needed a bit more discussion on course information and less on current events. Since the current events we did discuss in class never seemed to end up on the test or weren't discussed when I needed to know about them before. I am a bit worried if I had a different TA my test and paper grades would be different since we were always the class that got the curve not the other ones. I did enjoy the class I just wish it had more on topic discussion that led to me being able to have a bit more base knowledge on the test.
Give suggestions on how the course or how the instruction could be improved.	I do think that a heavier test review before the test would be so helpful and possibly some hints on an area of current events we should look into. I also think if we had a better briefing on what we should focus on for our paper assignments it would've led me to actually understand the full extent of what I should include in the paper so that I didn't lose so many points.
-----	-----
Give suggestions on how the course or how the instruction could be improved.	I thoroughly enjoyed the discussion in our class and thought that it provided an extra layer to understanding what we were learning in the classroom section. It was nice to be able to ask questions and understand what was going on in the world and applying it to ourselves and beliefs, and what we were learning.
-----	-----
Comment on strengths and weaknesses of the instructor	Brad was a great TA. He explained all the concepts we struggled with well and really helped prep us for exams.
Comment on strengths and weaknesses of the course	Overall, the course is useful but at times the lab feels like a waste of time.
Give suggestions on how the course or how the instruction could be improved.	Nothing to really improve.
-----	-----
Give suggestions on how the course or how the instruction could be improved.	Great guy.
-----	-----
Comment on strengths and weaknesses of the instructor	Liked him a little bit of a hard ass on grading though.
